

**BUILD  
TOGETHER**

## Portal Building Specialists

At Specialised Structures we Design and Build Portal Frame Buildings to suit our clients requirements, including supplying kitset Portal Buildings. We tailor our process of Discover, Design and Build to create Portal Buildings to suit your exact requirements. Our buildings are all site specific engineered to your building site so this also means your Specialised Structure is fit for purpose, durable, and able to handle the harshest of New Zealand unique conditions.

### Local experience. Local knowledge

Specialised Structures NZ was established in New Zealand to provide New Zealanders with a 100% New Zealand owned, operated and engineered portal building system using products all sourced within New Zealand.

Specialised Structures NZ remains a 100% New Zealand owned and operated family business.

At Specialised Structures we have Branches throughout New Zealand, all our Branches are 100% locally owned and operated by experts in the Construction Industry.

We challenge our clients to think about their exact requirements and challenge our teams to come up with the most effective solution for our clients. At Specialised Structures we have the tools to enable us to build to any specifications, integrating a multitude of construction methods and a variety of materials, including cold-rolled high tensile steel, structural steel, concrete tilt panels, and timber.

**INNOVATORS. THINKERS.**

### WHAT WE DO

We plan, design and construct quality portal buildings.

### WHAT WE ACHIEVE

Building solutions to meet the needs of our clients.

**Specialists in Portal Building Construction. Specialised Structures.**

HOW WE ACHIEVE IT

**BUILD TOGETHER**

## Commercial Buildings

Commercial and Industrial projects often include additional elements, such as Fire Design, Compliance Reports, Ventilation Design, Site Car parking, Accessibility, the list goes on. At Specialised Structures we have the team of professionals who are able to handle all these elements, we have the experience and expertise in this unique building market.

With Specialised Structures you get an excellent design service, efficient construction methods, and ultimately an attractive and highly functional commercial building.

UNIQUE CHALLENGES. SPECIALISED SOLUTIONS.

# Industrial Buildings

WE HAVE THE SYSTEM.  
WE HAVE THE EXPERTISE.

VERSATILE CLEAR SPAN. SPECIALISED FOR INDUSTRY.

# Storage Buildings

**STORAGE NEEDS**  
WE'VE GOT YOU COVERED

## Aircraft Hangars

Aircraft are a big investment, so need to be cared for and kept safe from the elements when not in the Air. Invest in a Specialised Structures Hangar and ensure your Aircraft is well protected.

Specialised Structures design and build any aircraft hangar of any size, from small single-plane buildings, to multi-plane complexes, with a full range of hangar door options, sectionals, rollers, sliding, bi-folding and stacker.

Site specific engineering, superior strength steel and large clear spans ensure exceptional aircraft hangars.

With Specialised Structures you get an excellent design service, efficient construction methods, and ultimately an attractive and highly functional aircraft hangar.

# Community Buildings

**BUILD SOMETHING THAT MATTERS.** FOR YOUR COMMUNITY.

## Implement Sheds

Having an Implement Shed will add value to your property, even more value if it best suits your needs and the needs of future owners of the property, even more value if it's designed to be in harmony with other buildings on the property.

Specialised Structures offer you the ability to choose your own bay sizes, open bays and closed in bays, clearlite roofing, windows, a range of door options, cladding options, with our clear span portal design, means Specialised Structures buildings offer exceptional flexibility.

Site specific engineering to suit all wind zones and snow loads, Specialised Structures Implement Sheds are strong, durable, look great and will add value to any property.

With Specialised Structures you get an excellent design service, efficient construction methods, and ultimately an attractive and highly functional Implement Shed.

**BUILD SOMETHING JUST RIGHT.** FOR YOUR REQUIREMENTS.

Specialised Structures build more than just sheds.  
We help you create practical solutions to suit your exact requirements.

# Shelters & Canopies

IF IT NEEDS COVERED. WE'VE GOT YOU COVERED.

Think of anything that requires shelter from the elements and Specialised Structures have you covered.

Ideal for Industrial, Agricultural and Domestic uses, and also a sensible option for schools, sports groups, or anything else requiring shelter.

Customised to provide the perfect solution.

## Rural Buildings

Rural Buildings, large or small, fit for any purpose. Specialised Structures take into account your unique climate, rural environment, together with the needs of you and your animals to design and build cost-effective, durable and above all, fit for the demand of the rural environment buildings. # Specialised Structures

## WHY CHOOSE A SPECIALISED STRUCTURE

### JUST A FEW OF THE REASONS TO BUILD WITH US

Our team will see you through the whole process from design, planning, costing, consent and building taking the stress out of any building project.

Specialised Structures buildings are custom designed to meet the exact requirements of our customers.

Our cold rolled steel buildings are non-modular and are able to be sized to the last millimetre in length or span, bay sizes are also adjustable.

Our Engineering team are New Zealand registered Engineers, all buildings are site specific engineered and strong and durable.

Specialised Structures proudly source all our materials in New Zealand.

Cladding profiles include 5 Rib, Corrugated and other Tray profiles for metal cladding or any other cladding materials suitable for example cedar, plywood board and batten, plaster etc.

Specialised Structures offer choice of high quality building papers, thermal breaks, linings and DriDex solutions, together with clearlite sheets to allow in natural light to your building.

We also offer cost efficient boundary firewall protection solutions if required.

Specialised Structures offer our clients unparalleled industry knowledge and experience.
